

DCD-Bever 50-100-175-225-350-525-700-1050-1400 Series

DCD-Bever 225ie (50+175)

- Prefab Decentral Plug & Play modules
- Saving huge costs of Canalisation
- Isolated: independant from weather conditions
- Minimal use of space: only 3,5x3,5m2 per unit
- Closed tanks: almost no smell
- Modular Design: adjustable at any moment
- Sustainable: Low energy usage
- Excellent operating margins: -60% to +40% of design capacity
- Pre designed: no designing costs and time needed
- Telemetry: Operated from distance, low maintenance costs
- Proven Technology!

DCD-Bever 1050ie (6x175)

DCD-Bever 1.750-2.500-5.000-10.000...-50.000 Series

DCD-Bever 10.000

- Modular Units in steps of 5000ie
- Minimal use of space
- Modular Design: adjustable at any moment
- Sustainable: Low energy usage
- Excellent operating margins: -60% to +40% of design capacity
- Pre designed: no designing costs and time needed
- Telemetry: Operated from distance, low maintenance costs
- Inclusive Sludge Dewatering
- Proven Technology!
